

**Keeping the World Flowing for Future Generations** 

M&M International coils are designed for continuous duty in conformity to the EN 60730 safety standards. They are encapsulated in a self-extinguishing synthetic material and offer high mechanical protection and excellent thermal dissipation. They are fully interchangeable on all M&M International solenoid valves, thereby reducing warehouse inventories.

#### **Common features**

- Electrical connection: fast on connection 6,3 x 0,8
- Protection class: IP 65 (according to EN60529) -NEMA 4 (UL 50) with connector and gasket
- Operation: continuous (ED 100%)
- Voltage tolerance: AC +10% to -15%
   DC +10% to -5%

### Notes

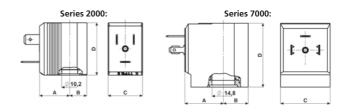

- All coils manufactured under M&M brand comply with the RoHS Directive (2011/65/EU)
- Insulation class according to EN 60730-1, see table on reverse
- All windings are realised with class 'H' wires (180 °C)
- Custom voltages and low power consumption available: please contact Rotork Sales Department

Minimum batch quantity required for some voltage ratings.

# 2000 / 7000 Series

Coils for M&M branded solenoid valves
